

THE BIRMAN B A C

Example Show Reports for Probationer Judges

Seal Tabby Point Female

Just over 3 months old seal tabby point female kitten of very good type. She is long in the body and very well grown. Broad rounded skull, neat medium seal brown ears set well apart on her head, thumb prints not yet apparent. Correct slight dip to the profile, level bite and firm chin. Excellent gentle Birman expression, almost round but not bold deep blue eyes. Pink nose leather, outlined in pale brown. The muzzle is strong and rounded, her cheeks are developing nicely. Clear 'M' to the forehead and spotted whisker pads. Rich seal tabby barring to her mask, light coloured spectacles around the eyes. The white front gloves are low across the angle of the paw, seal colour dips right down between several white toes. The back socks are low, and the gauntlets are short, but taper adequately half way up the legs, towards the hocks. Medium length thick set legs and strong paws, clear seal tabby barring to the front legs. Well prepared medium length pale beige body coat and short feminine ruff. Clear under parts and slightly curled tummy fur. The medium length seal brown tail shows several stripes, the tip of tail is solid seal brown. A lovely well balanced kitten with an outstanding temperament. First place not awarded due to seal colouring in the white area.

Seal Point Female Kitten

8 months 2 weeks old seal point Birman female kitten of outstanding Birman type. She is long in the body, very well boned and of substantial weight. Broad skull, the medium rich seal brown ears wide at their base, are set well apart on her broad rounded head. The bite is level, required slight dip to the profile, the nose leather is seal brown. Strong rounded muzzle and firm tapering chin. The seal brown mask still developing over her wide and rounded cheeks. The almost round expressive eyes are a good shade of clear blue. Full pure white gloves, these almost match, the right more generous than the left. Behind the right glove white travels to and around the stopper pad, but not past. Medium length white socks and long tapering gauntlets, these finish just below the hocks. Medium length thick sets legs, the seal brown points colouring to the front legs a little uneven at present. Well furnished medium length brown tail, rather brindled on the surface today. Full length clear pale beige body coat, it is silky soft and has been well prepared. Medium length feminine ruff surrounding her face, clear under parts. A showy strong girl, although not happy whilst out of her pen.
